SEEDS

From Our Seed Farms Direct to the Planter

TERMS

The prices named herein are **net cash** with order. To customers of approved credit and well known to us we will sell on limited time, with interest added at six per cent. All outstanding bills are due June 1.

When seeds are wanted by mail (or parcels post), postage must be added at the rate of 8 cents per pound for seeds (except flower seeds), 10 cents per quart for Corn and Onion Sets, and 15 cents per quart for Beans and Peas. (The parcels post law does not affect the postage rate on seeds.)

Bags, barrels, and other packages, free of charge. No charge for cartage.

Purchasers pay express and freight charges unless otherwise agreed.

DISCLAIMER

We have grown and handled seeds for many years, and aim to have our stocks as pure and reliable as possible. So much depends upon the condition of the weather, soil, etc., when seeds are planted, and the care taken in planting and caring for the crops, that we will not sell goods under a guarantee, but, in common with other reliable seed houses, we sell our goods subject to the following disclaimer adopted by the American Seed Trade Association:

Thos. Griswold & Co. give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants they send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

THOS. GRISWOLD & CO.

INTRODUCTORY

In sending you our 1914 Catalogue and Price-List, which comes to you in larger and better form than ever before, we want to tell you a few brief facts about ourselves and our business.

We are often asked how we are able to sell high-grade seeds of the quality of our product, at the very reasonable prices which we quote for our goods. We wish to answer that question for the benefit of those who have not as yet placed their orders with us.

We are, in the first place, seed-growers of very long experience. This business was started in 1845, and has come down in the family from that day to the present. Each generation has tried to keep the standard up to the highest point, and to improve the quality of our product.

This we are able to do because the growing and handling of seeds is our business and our only business, and we personally oversee it, even down to the smallest details. We believe in the old adage, "If you want a thing done well, do it yourself," and we are not satisfied to allow any part of our business to escape our personal attention.

Furthermore, we live in the country, having our own buildings and our own seed farms, and have no heavy expenses to pay. We are also in the heart of a very fertile seed-growing section, and our crops are good almost without exception.

One more thing—We do practically a catalogue business and have no large commissions or salesmen's expenses to pay, and do no extensive advertising, and for these reasons are able to sell direct to the planter at very reasonable prices. And because we do principally a cash business, we do not have to charge off a large amount each year for bad debts.

As to the few varieties that do not mature well in this section, we have these grown elsewhere by experienced growers who specialize in the different varieties wanted. Many years' experience has shown us where these contracts may be placed in order to get the best and most economical results.

We wish to call your special attention to the pages in this catalogue dealing with Sweet Corn, Field and Ensilage Corn, and Peas. Although the drought this year has materially affected the corn crop in many parts of the country, we were very fortunate in having good crops in this section, and can furnish fine stocks at prices only a little in advance of last year's. Our trade in corn and peas has always been very heavy, and this season we expect a much heavier trade than usual owing to short crops elsewhere.

THOS. GRISWOLD & CO.

HOW TO ORDER

Order Early. It is highly important that you order as early as possible. We receive so many orders near planting time that our facilities are overtaxed to keep up with them. Read the catalogue thoroughly, make out your order carefully, and please send it in as early as you possibly can.

How to Send Money. Remit by post-office or express money order, registered mail or bank draft. Parties with established credit may send personal checks. Postage stamps accepted for amounts under \$1.00. Post-office money orders should be made payable at South Wethersfield, Conn.

Name and Address. Please remember to write your name, post-office, county and state as distinctly as possible: also state how and where to ship the goods (fill out shipping instructions on order sheet), and if on a stage route, send us special directions, giving us the name of the express company delivering the goods.

Correspondence. We try to give prompt attention to all proper letters of inquiry, etc. We ask, as a favor, that all questions be stated clearly and briefly, not on order sheets, but in a separate letter.

Shipping Instructions should accompany each order. If no such instructions are received we will ship by the best and cheapest route known to us.

After shipping in good order our responsibility ceases. Claims for damages or miscarriage must be laid on the carriers.

VISITORS WELCOME

Our office and warehouse is about six miles south of Hartford, on the line of the Hartford and Middletown trolley (Station 23).

We are glad to have parties call that find it convenient to do so.

FOR YOUR FRIENDS

We will gladly send catalogues to your friends if you will supply us with their names and addresses.

THOS. GRISWOLD & CO.

GARDEN SEEDS

ASPARAGUS

Wardwell's Kidney Wax. Large, flat, yellow pod, and early.....	\$0 30	\$1 00	\$1 80	\$7 00
Refugee Wax. A very productive yellow podded variety.....	25	90	1 60	6 00
Yosemite Mammoth Black Wax. Mammoth, long, yellow pods, fine quality	Crop failed.			
Davis' White Kidney Wax. Extremely hardy and good keeping quality	25	90	1 60	6 00
Valentine Wax. Round, meaty, yellow pods, excellent.....	25	90	1 60	6 00
Round Podded Kidney Wax. Hardy and productive, round curved pods, tender and stringless.....	25	90	1 60	6 00

Dwarf or Bush Lima Beans

Henderson's Bush Lima. A small, low lima, very early and good quality	25	90	1 70	6 50
Burpee's Bush Lima. Dwarf vine; large flat beans; good size pods..	30	1 00	1 95	7 50
Thorburn's or Dreer's Bush Lima. Roundish white beans; fine quality	Crop failed.			

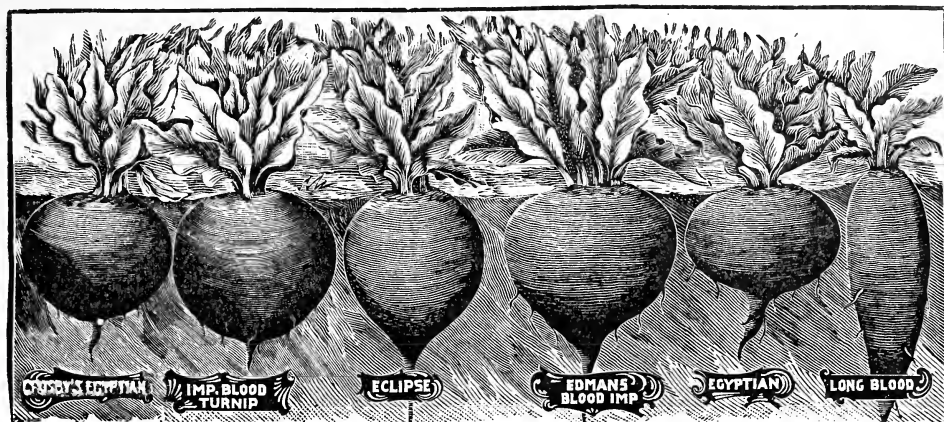

BURPEE'S IMPROVED BUSH LIMA BEAN

Burpee's Improved Bush Lima. A distinct improvement in bush limas, having much larger and more uniform pods filled with extra large beans of fine quality, and is extra early and very prolific	40	1 50	2 90	11 00
Fordhook Bush Lima. A much improved type of Dreer's Bush Lima. The plant is of stiff upright growth, branching freely, a great yielder of pods well filled with thick, luscious beans....	40	1 55	3 00	11 75

Pole or Running Varieties

Horticultural or Cranberry Pole. Long, green pods; red striped...	25	80	1 50	5 75
Early Dutch Case Knife. Very early lima; flat, medium size, green pod	25	75	1 35	5 00
Extra Early Jersey Lima. One of the best early limas.....	25	85	1 60	6 00
Siebert's Early Large Lima. Similar to the above, but larger pods..	25	85	1 60	6 00
King of Garden Lima. Early, productive, large podded variety, very popular	25	85	1 60	6 00
Extra Large Lima. Very large, late lima.....	25	85	1 60	6 00
Large Lima or Butter. Common variety.....	25	75	1 35	5 25
Dreer's Improved Lima. Fine quality and early, beans nearly round.	25	85	1 60	6 00
Kentucky Wonder (Old Homestead), Stringless. Long bright green pods; tender; grow in clusters and very productive.....	25	90	1 60	6 00

BEETS

Garden Varieties

	Per oz.	Per ¼ lb.	Per 1 lb.	5 lbs. or more Per lb.
Fire Ball. Early, globe shaped, flesh blood red and fine quality.	\$0 10	\$0 30	\$1 00	\$0 90
Crosby's Egyptian Turnip. Improved strain of the Old Egyptian; thicker beet and one of the most popular market garden varieties	10	20	65	60
Early Egyptian Turnip. Quick growing, dark red, flat variety. . . .	10	20	65	60
Early Eclipse. Smallish round red beet; excellent for home garden or market	10	20	60	55
Columbia (Burpee's). Round, deep red; fine quality.	10	20	65	60
Detroit Dark Red. Early, dark red beet, small tops.	10	20	65	60
Extra Early Dirigo. One of the earliest, fine quality.	10	20	65	60
Early Crimson Globe. Very early, globe shaped; flesh deep red. . .	10	20	65	60
Edmand's Early Turnip. Blood red and sweet; good variety to sow late for winter use.	10	20	50	45
Improved Early Blood Turnip. Improvement on the old strain, fine stock	10	20	50	45
Long, Smooth, Dark Red. Fine grained, long deep red beet.	10	20	65	60
Swiss Chard or Sea Kale. Used largely for greens.	05	15	50	45
Swiss Chard, Lucullus. New variety of excellent quality.	10	25	75	70

MANGEL BEETS

For Stock Feeding

Red Globe Mangel. Medium size, globe shape.	05	15	30	25
Mammoth Long Red Mangel. Very large, great yielder.	05	15	30	25
Golden Tankard. Short, thick, yellow mangel.	05	15	30	25
Giant Half Sugar. Large size, bright pink shading to white in color. Highly recommended for stock feeding.	05	15	30	25
White Sugar. A good small beet for stock, sweet.	05	15	30	25

BRUSSELS SPROUTS

Paris Market. Dwarf variety, excellent.	10	35	1 25	1 15
Long Island Strain. Favorite in New York market.	15	40	1 50	1 40

CABBAGE

We have a large Market Gardeners' trade on cabbage and furnish the finest stocks possible.

	Per oz.	Per ¼ lb.	Per 1 lb.	5 lbs. or more Per lb.
Extra Early Express. A small, extra early cabbage, pointed head..	\$0 15	\$0 45	\$1 50	\$1 40
Early Spring. The earliest large flat head variety.....	15	50	1 75	1 60
Early Jersey Wakefield. A fair size. Early, peaked head.....	20	60	2 00	1 90
Large Jersey Wakefield or Charleston. Larger than the Early Jersey Wakefield and about as early.....	20	60	2 00	1 90
Early Winningstadt. Small pointed head, very early.....	10	40	1 25	1 15
Henderson's Early Summer. A medium sized flat head variety. Ex- cellent for summer.....	15	45	1 50	1 40
All Head. (Special Strain.) This is an improved strain that has been developed more particularly for the Long Island Market Gardeners' trade and is considered a very fine strain.....	20	60	2 00	1 90
Henderson's Succession. A good second early flat head sort.....	20	50	1 50	1 40
Fottler's Improved Brunswick. Old reliable standard flat head...	20	45	1 50	1 40
Surehead. Large, uniform, solid head; sure header.....	20	50	1 60	1 50
All Seasons or Vandergaw. Fine, large, quick heading sort.....	20	50	1 60	1 50
Premium Late Flat Dutch. The old popular variety for autumn and winter	15	45	1 50	1 40
Autumn King or World Beater. Very large solid heads and late...	20	50	1 60	1 50
Danish Ball Head or Hollander. Very hard, small, round head. Ex- cellent keeper	15	45	1 75	1 60
Volga. Round, solid, uniform head; medium late, fine strain.....	15	40	1 50	1 40
Red Dutch Pickling. A hard headed, red pickling cabbage.....	10	40	1 25	1 00
Mammoth Red Rock. Larger than Red Dutch.....	15	40	1 50	1 40
Perfection Drumhead Savoy. Large, crisp and tender head, curled or crumpled leaves.....	15	45	1 60	1 50

CARROTS

CHANTENAY OR MODEL CARROT

Early Scarlet Horn. A short, early variety.....	10	20	65	60
Ox-Heart or Guerande. One of the earliest, heart shape.....	10	20	65	60
Improved Long Orange. The old standard, more for stock feeding..	10	20	60	55

From Our Seed Farms Direct to the Planter

CARROTS—Continued

	Per oz.	Per ¼ lb.	Per 1 lb.	5 lbs. or more Per lb.

Boston Market. One of the old reliable sorts, excellent for late fall or winter	15	40	1 25	1 10
Kalamazoo. Large ribbed, tender and crisp.....	15	45	1 40	1 25
Shumacher. Very large yellow heart, nutty flavor, crisp.....	15	45	1 40	1 25
Winter Queen. Finest winter variety, long keeper.....	15	45	1 40	1 25
Celeriac. Large, smooth sprague, turnip-rooted celery.....	10	30	1 00	90

CORN SALAD

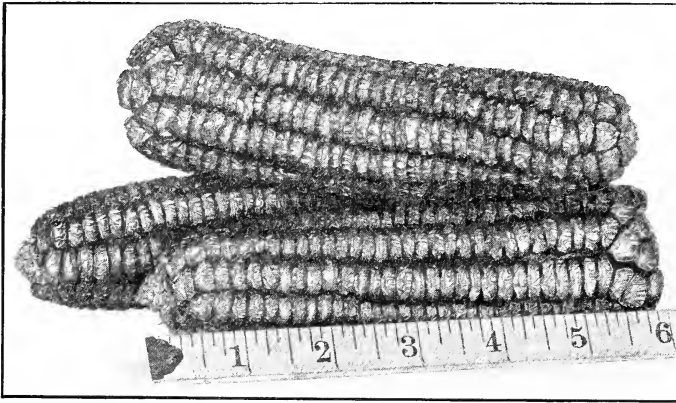

Broad Leaved. A good substitute for lettuce in winter.....	05	15	40	35
---	----	----	----	----

SWEET CORN

We invite special attention to the following pages (9 to 13, inclusive), dealing with this subject. We make a specialty of Sweet Corn. We grow large quantities, and spend much time in the care of crops and selecting stocks, in order to keep the quality up to "top-notch." **NEW ENGLAND-GROWN SWEET CORN CANNOT BE BEATEN.** Owing to the very severe drought in many sections this past season, the corn crop is short.

EXTRA EARLY DAWN

This is undoubtedly the earliest sweet corn in cultivation and brings a high price in the market on account of its earliness. It somewhat resembles the Red Cory, about same sized ear and a week or ten days earlier. The stalks are quite dwarf, and it can be planted near together, and in this way large yields per acre can be procured. It is becoming popular with many market gardeners and they are planting it quite extensively for their early corn crop.

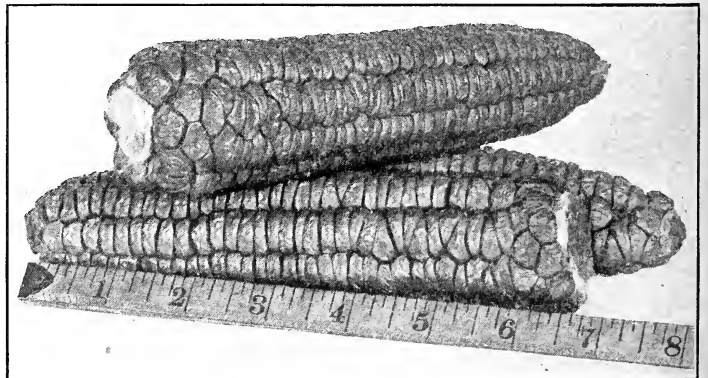

EXTRA EARLY DAWN

Per qt.....	\$0 20
Per 4 qts.....	75
Per peck	1 25
Per bu.....	4 50

GOLDEN BANTAM

A very popular variety in many localities where well known; but some market gardeners object to its color, claiming that some of their customers refuse to buy it, thinking that a field variety is being worked off on them; but when people once get a taste of it they are generally convinced that it is a superior table variety and want more. It is a medium-sized ear with a golden yellow kernel of fine flavor, and is quite early. Stalks only fair size and can be planted quite near together. We would recommend a good trial of this variety, as we think it will please those who try it.

GOLDEN BANTAM

SWEET CORN—Continued

	Per quart.	4 quarts.	Per peck.	Per bu.
Extra Early Red Cory. Very early, large kernel, medium size red cob	\$0 15	\$0 55	\$0 95	\$3 50
Extra Early White Cory. Like the above, only white.....	15	55	95	3 50
Mammoth White Cory. About as early and larger than White Cory.	15	55	95	3 50

COSMOPOLITAN

Here is an early variety but not as early as the Extra Early Dawn or Cory, but of much larger ear and perhaps ought to be classed as second early. It is quite similar to Early Champion in growth and earliness, but is somewhat thicker ear and generally stays in the green or roasting stage longer, which makes it a valuable market variety where a large second early ear is wanted. The ears are large, creamy white color and fine flavor. The stalks grow large and make good fodder.

COSMOPOLITAN

	Per quart.	4 quarts.	Per peck.	Per bu.
Early Minnesota. Early variety and good quality.....	\$0 15	\$0 55	\$0 95	\$3 50

METROPOLITAN

A fine large second early corn and comes in nicely in home garden after the extra early varieties

have gone by, and is also a valuable variety for market. It is a great yielder of large white, handsome ears, and of the finest quality. The stalks grow large and leafy, making desirable fodder.

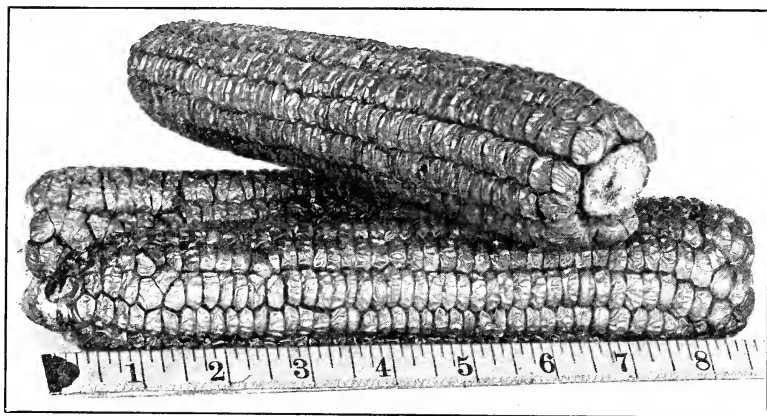

METROPOLITAN

SWEET CORN—Continued

POTTER'S EXCELSIOR OR SQUANTUM

POTTER'S EXCELSIOR OR SQUANTUM

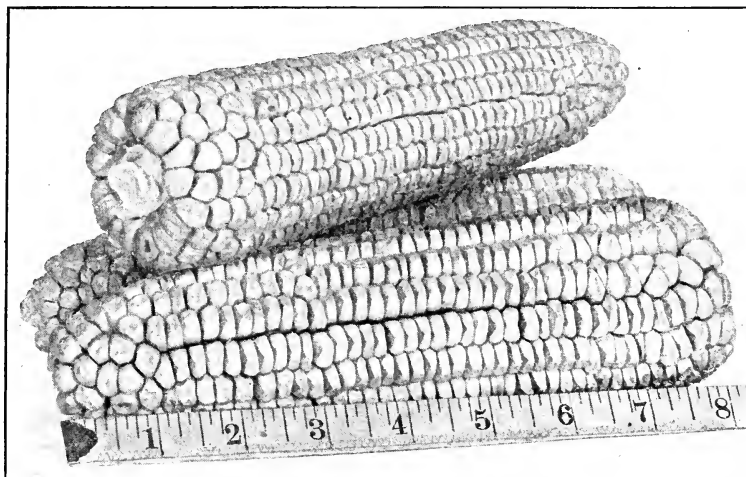

A good-sized ear variety of the finest quality and is a great favorite in New England, especially in Rhode Island. It is medium late, maturing just before the Stowell's Evergreen. The ears are white, quite large and very sweet. An excellent medium late variety, well worthy a good trial. Stalks large and good fodder.

Per qt.....	\$0 15
Per 4 qts.....	55
Per peck.....	95
Per bu.....	3 50

STOWELL'S EVERGREEN

This is probably the most popular main crop sweet corn known to-day, and is more extensively grown than any other variety for both private garden and market use, and is also sown in quantity by farmers and dairymen for fodder. It is a late variety and grows a large stalk, making an exceptionally fine fodder. The ear is large and white, with deep, large, very sweet kernels, and is particularly sought for in many markets.

Per qt.....	\$0 15
Per 4 qts...	50
Per peck...	90
Per bu.....	3 25

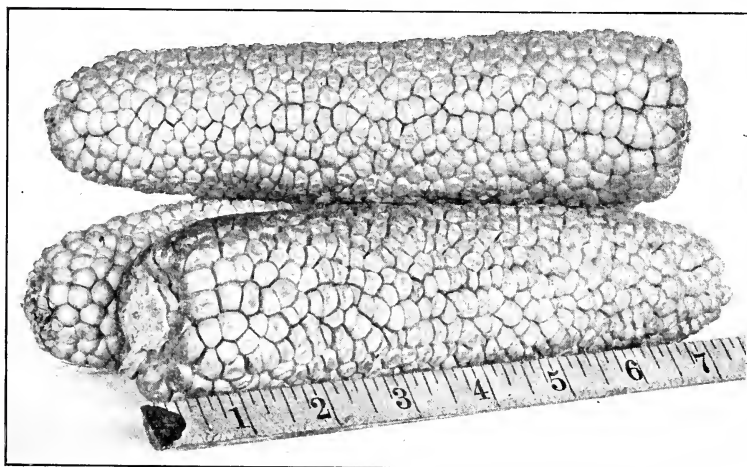

STOWELL'S EVERGREEN

COUNTRY GENTLEMAN

This variety is also sold under the name of Shoe Peg, its kernels being long and slender, somewhat resembling shoe pegs. The ears are good size, very sweet and fine flavor. An exceptionally fine late or market variety. Stalks large and leafy, valuable for fodder.

GARDEN PEAS

We do a large business in peas and our Northern grown stocks are giving excellent satisfaction:

First Early Varieties

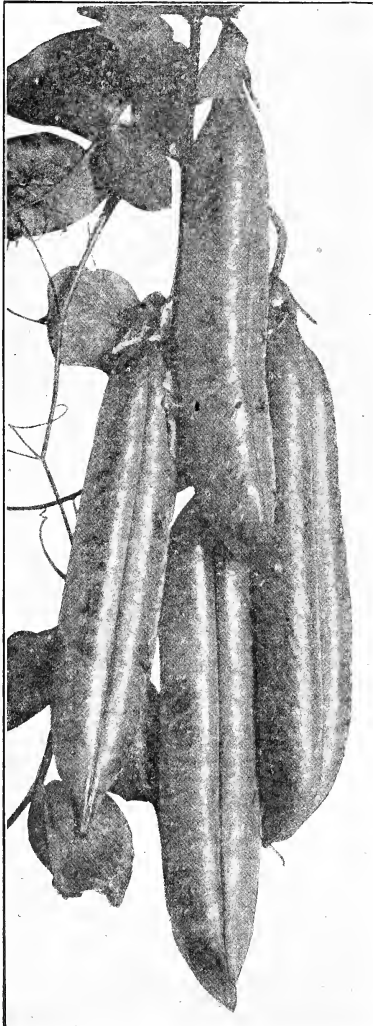

East Hartford Extra Early. Very popular with many around Hartford market for an extra early pea, and can be planted earlier than wrinkled varieties, thus procuring an extra early crop. The pods are rather small but prolific—peas of good quality. Seed, smooth, round and slightly dented. Height two and a half feet

Per quart. 4 quarts. Per peck. Per bu.

\$0 25 \$0 80 \$1 45 \$5 25

Philadelphia Extra Early. This is one of the old strains of the round seeded extra early sorts and quite similar to East Hartford Extra Early. Height two and a half feet.....

25 75 1 35 5 00

GRADUS OR PROSPERITY

First and Best. Practically same as Philadelphia Extra Early, little different strain. Height two and a half feet..

25 75 1 35 5 00

Alaska. This is a very hardy, prolific pea of good quality, and can be planted quite early. Pods are fair size, well filled. Seed round, bluish tinge, slightly pitted. Height two and a half feet..

25 80 1 45 5 25

*Gradus or Prosperity

Here we have the famous Gradus or Prosperity Pea—the largest podded early variety known, when grown under favorable conditions. This pea requires a warm, rich soil, well fertilized, and we do not hesitate to say it is the best early market variety when best results are obtained, but will not be satisfactory on poor soil. The peas are large, plump and fine flavor. Pods are long, large and nearly straight, slightly rounded at the point. Vine quite vigorous, about three feet high, and we think should be bushed for best results, although many do not deem it necessary. Seed large, wrinkled, cream color, tinged with green. Matures early.

***Gregory's Surprise.** A pea of high merit, resembling in vine, size, shape of pod and ripening, the Alaska, and has the fine flavor of other wrinkled varieties. Seed small, wrinkled. Height two feet

\$0 25 \$0 85 \$1 55 \$6 00

***Little Marvel.** This is a comparatively new variety and has become quite popular. It is of extra early dwarf habit and fine quality. Height about fifteen inches.....

30 1 00 1 85 7 00

*Thomas Laxton

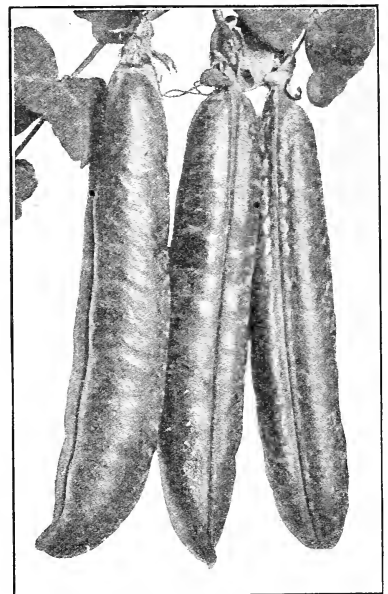

This variety closely resembles the Gradus in its habit and rapidity of growth, earliness and foliage. The pods are not quite as large but are better filled, with first quality peas. It is a pretty sure cropper. The pods are nearly straight and rather blunt at the end. The seed is of good size and wrinkled; cream color, tinged with green. Height about three feet, and not necessary to bush unless on moist ground.

* American Wonder. Vigorous and productive with dark green foliage responding generously to high culture, and desirable for home gardens. Pods about two and a half inches long and filled to the end with best quality peas. Height about twelve inches	\$0 25	\$0 85	\$1 60	\$6 00
* Sutton's Pioneer. A dwarf variety—of excellent merit. The vine is quite vigorous and upright. The pods are dark green, of good size and borne in abundance. Height twelve inches.....	25	90	1 70	6 50
* Nott's Excelsior. Improved American Wonder, better yielder. Height fifteen inches.....	25	90	1 60	6 00

***Sutton's Excelsior**

SUTTON'S EXCELSIOR

This variety we consider the best all around early pea in cultivation for the family garden. It is a dwarf variety, quite similar in habit of growth to Nott's Excelsior. It takes up but little space and still it is a great producer of quite large pods filled with luscious peas. Its greatest merit, however, lies in the fact that we have an early dwarf wrinkled pea in the front rank for earliness with much larger and handsomer pods than any other dwarf early wrinkled pea yet introduced.

This variety is being extensively sown by market gardeners and is very popular in many sections. It certainly deserves a trial in every garden. Seed green and wrinkled. Height about fifteen inches. Needs no bushing.

*Dwarf Champion. Fine variety, quite similar to Juno. Height two and a half feet.....	25	80	1 55	6 00

*Boston Unrivalled

This is a pea of the Telephone type, which it resembles in habit of growth. In fact, this variety is often sold as Improved Telephone. The vines are very vigorous, growing about four feet high and produces freely of long, straight, broad pods, well filled with large peas of delicious flavor. An excellent variety for late main crop. Seed green and wrinkled. Should be bushed.

Per 4 qts.....	90
Per peck	1 70
Per bu.....	6 00

***Admiral Dewey**

Here is a pea that belongs in the front ranks of the large late varieties and is recognized as a leader in its class. The vines are remarkably vigorous and productive. It is almost entirely free from sports and in this respect is far ahead of most any other large late pea. The pods are of the largest size, are nearly straight, a little rounded at the end, deep green in color and most beautifully shaped. They are well filled with deep green peas of richest flavor. The height is above four feet. This variety requires bushing. Seed large, green, wrinkled.

FOR YOUR FRIENDS

We will gladly send catalogues to your friends if you will supply us with their names and addresses.

GRASS SEED

It is of the utmost importance to the farmer that the grass seed he sows should be pure and clean. First-class recleaned seed, while costing a little more in the first place, is much cheaper in the end than the light chaffy grades sold at low prices.

We handle the best grades of grass and clover seed. Kindly bear this in mind and let us quote you prices. Our sales on high-grade seeds have increased from year to year, and no other grade will give as good satisfaction.

Fancy Lawn Grass Mixture.....
Red Top. Sown alone or with Timothy makes excellent hay.....
Timothy or Herds Grass. Makes fine horse hay (Bushel 45 lbs.)...
Orchard Grass. Good to sow with other grass seed for pasture and shady places
Kentucky Blue Grass. Valuable for pasture when mixed with other varieties. Also excellent for lawns.....
English Rye Grass. A permanent nutritious meadow grass.....
Meadow Fox Tail Grass. Earlier than Timothy, which it resembles.
Tall Meadow Oat Grass. Early, luxuriant growth, excellent for pasturing or hay.....

CLOVER SEED

Alsike. Excellent for permanent pasturage, very hardy, good for wet or dry soil. Also makes fine hay (Bushel 60 lbs.).....
Alfalfa or Lucerne. When well rooted is very hardy, three crops in one season, fine cow feed (Bushel 60 lbs.).....
White Dutch. Excellent to sow with other grass seed for pastures and lawns
Medium Red. This is the common hay clover so extensively used (Bushel 60 lbs.).....
Mammoth Red or Pea Vine. Excellent to plow under for green manure (Bushel 60 lbs.).....
Crimson or Scarlet Italian. Excellent for bees, also to plow under (Bushel 60 lbs.).....

The Grass-Seed Market fluctuates greatly and we are unable to make permanent prices. Write when in want and we shall be pleased to quote prices.

Japanese or Barnyard Millet. (Bushel 32 lbs.) A great forage plant, very heavy cropper, and is extensively sown for green feed	35	60	2 00	1 90

FARM SEEDS

FIELD AND ENSILAGE CORN

NINETY DAY YELLOW FLINT

Our strain of this variety is quite different from Canada Yellow which is sometimes called Ninety Day. It grows a smaller ear and stalk, and matures much earlier, thus making it a valuable corn for

NINETY DAY YELLOW FLINT

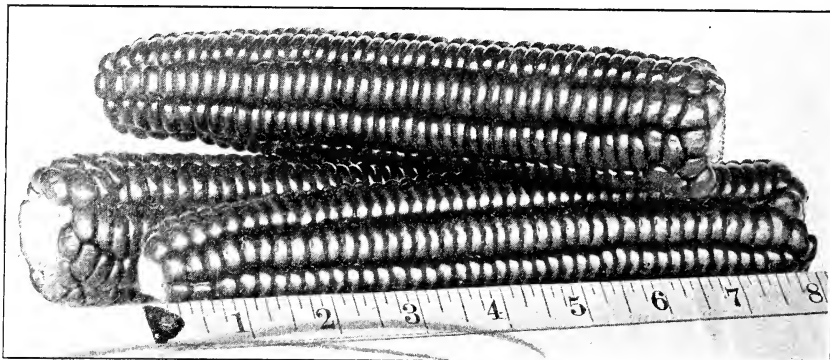

extra early crop or for Northern section, where the season is short. It is also very desirable for late planting, and is often planted after a hay crop is secured, about July first. As the stalks grow only medium size, it should be planted nearer together than ordinary flint corn, 3 ft. x 3 ft. is a good distance. The ears are smallish with bright golden yellow kernels and very handsome in appearance.

Per 4 qts.....	\$0 40
Per peck	70
Per bu.....	2 50
2 bu. and over, per bu...	2 25

CANADA YELLOW FLINT

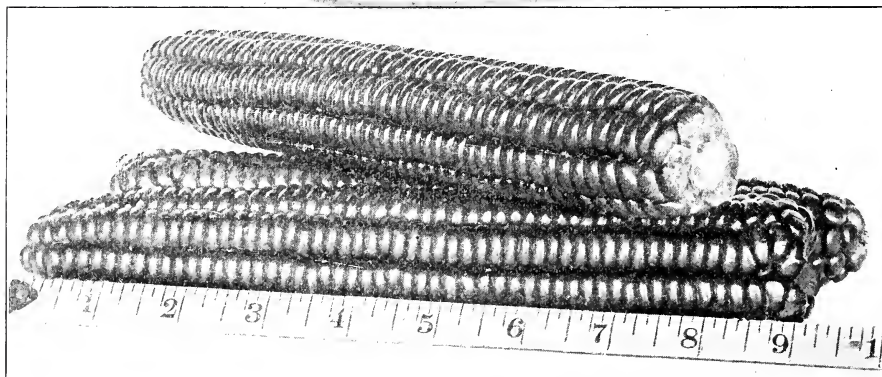

This is the common yellow flint variety so extensively grown in New England. It is an early corn and generally matures in from 90 to 100 days from planting. The ears are of good size, bright yellow color and is great yielder on good soil. Stalks grow quite large and make excellent fodder. This variety is probably more generally grown here in the East than any other flint kind.

Per 4 qts.....	\$0 30
Per peck	50
Per bu.....	2 00
2 bu. or more, per bu.	1 75

CANADA YELLOW FLINT

LONGFELLOW YELLOW FLINT

LONGFELLOW YELLOW FLINT

Similar in type and growth to Canada Yellow, but ears are longer and slimmer. This variety is being planted quite extensively in many sections and is giving good satisfaction.

FIELD and ENSILAGE CORN—Continued

Sanford White Flint. A long white flint corn, matures earlier than most dent varieties. The stalks are tall and leafy, which makes it valuable for ensilage.

	Per 4 quarts.	Per peck.	Per bu.	2 bus. or more Per bu.
	\$0 25	\$0 50	\$1 85	\$1 75

PRIDE OF THE NORTH

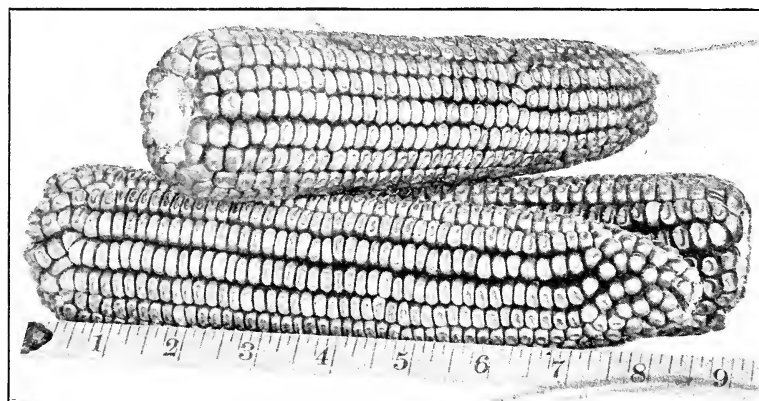

This is an early yellow dent corn that is meeting with much favor with many of the Northern farmers, who prefer a dent to a flint variety. It produces an abundance of good size, handsome ears with fairly long yellow dented kernels and is about the only yellow dent variety that will mature in Northern New England satisfactorily.

PRIDE OF THE NORTH

Per 4 qts.....	\$0 35
Per peck	55
Per bu.....	1 90
2 bu. or more, per bu.	1 80

REED'S EARLY YELLOW DENT

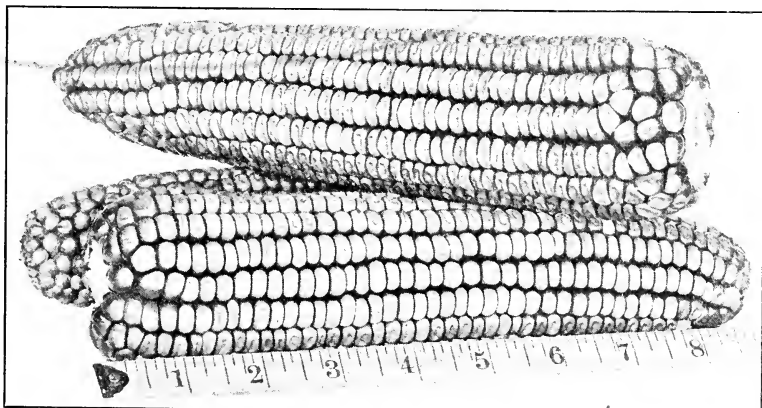

REED'S EARLY YELLOW DENT

Although this is called an early dent corn, the ears and stalks grow to such a large size that it is quite late in maturing, and hardly safe to plant extensively in this section for cured corn; but further South where the season is longer it is one of the best. We highly recommend it for an ensilage and fodder corn, as the ears are large and the stalks large and leafy, making abundance of excellent fodder.

Per 4 qts.....	\$0 30
Per peck	50
Per bu.....	1 80
2 bu. or more, per bu.	1 70

THOROUGHbred LEAMING

Here is perhaps the best known ensilage corn grown, and is very popular with many farmers and dairymen. Our sales of this variety have increased very rapidly in the past few years, and the demand was so great last season that we were obliged to turn down many orders, not being able to fill them. The stalks of this strain grow very large and leafy, and make the best of ensilage. The ears, when matured, are large and handsome, with long, yellow kernels, well dented. This is considered an exceedingly fine ensilage corn, but is late to mature well in this section.

FIELD PEAS AND SOJA BEANS

To sow for feeding purposes and to plow under to enrich the soil.

Canada Field Pea. This is a small round field variety growing a vine about three and a half feet high and is generally sown with oats or other grains to cut green for feeding purposes and makes excellent fodder. It is sometimes called Cow Pea, but is entirely different from the Southern Cow Pea, which has a vine more like a bush bean, and the seed resembles a small bean and is not much sown for feeding purposes in this section. The Canada Field Pea is the variety to sow with oats for feed.....	45	75	2 50	2 35
---	----	----	------	------

Southern Cow Peas. These grow a bean-shaped vine with large leafy stalks, and are more to plow under to enrich the soil than for feeding purposes, although in the south the vines are fed quite extensively. They require warm weather and should not be sown before May 15th. We list several varieties which are good and quite similar in growth, as follows: Whip-Poor-Will, Clay, New Era and Mixed.....	50	85	3 10	3 00
Soja Beans. Used for same purpose as Southern Cow Pea.....	50	75	2 75	2 60

Rye and Vetches Mixture. (Bushel 60 lbs.) For a number of years we have sown a mixture of rye and vetches among our crops after the last cultivation, for a winter covering and to plow under in spring to help out the manure pile, and find it makes a good crop to keep the land from washing, and greatly enriches the soil, and has proven so satisfactory with us we have decided to list it. Sow any time between August 15th and October 1st to ensure a good catch before freezing weather. Sow about bushel to the acre.....	06	05	04¾	04½

We respectfully solicit your order, knowing that our seeds will please you, and that our prices are reasonable. We are not asking you to pay two or three extra profits, but give you an opportunity to buy your seeds direct from growers. Possibly you may never have dealt with us, and know nothing about our seeds. If this is the case, send us a trial order, and let us prove that our seeds are first class.

Please remember that our Catalogues are free to your friends that plant seeds. Simply send us their names and addresses, and we will mail copies at once.

Flower Seeds

On the following pages we list selections of choice Flower Seeds put up in very liberal Packets.

Annuals—Bloom first year from seed and plant dies after one season.

Biennials—Bloom second year from seed and plant dies after second year.

Perennials—Bloom second year from seed and plant lives and blooms for several years.

Tender—Means plant will not stand the least frost.

Half-Hardy—Means plant will stand a little frost and needs protection.

Hardy—Means plant will stand considerable frost.

AGERATUM (Floss Flower)

Pkt.

A hardy annual of easy culture. Especially valuable for bedding as it is literally covered with blossoms all summer. Sow the seed early in spring, either in boxes to transplant, or out of doors and thin to four or six inches.

Best Mixed Varieties..... \$0 05
5 Pkts., 20 cents.

ALYSSUM, Sweet

A fragrant hardy annual, bearing spikes of small, white flowers in great profusion throughout the summer and autumn. Useful for borders or early bedding. Sow the seed early in spring.

Little Gem, 3 to 4 inches high..... 05
5 Pkts., 20 cents.

White Carpet 05
5 Pkts., 20 cents.

ANTIRRHINUM (Snap Dragon)

A half-hardy perennial, growing from 6 inches to 2 feet tall. Flowers are oddly shaped and apparently closed, but by pressing the sides together can be made to open like a dog's mouth.

Extra Choice Mixed..... 05
5 Pkts., 20 cents.

ASTERS

A popular half-hardy annual, growing from one to two feet high. The best method of culture is to sow the seed in boxes in late

ANTIRRHINUM

ASTERS—Continued

Pkt.

winter and transplant about May 1. The seed can be sown, however, in rows where the plants are to remain, thinning them 10 to 12 inches apart.

Queen of Market. Choice Mixed..... 10
5 Pkts., 40 cents.

Choice Tall Mixed. Best Varieties..... 10
5 Pkts., 40 cents.

Best Dwarf Mixture..... 10
5 Pkts., 40 cents.

Comet, Choice Mixed

An extremely beautiful class, of the same height and habit as the Dwarf Paeony Perfection, forming regular pyramids 12 to 15 inches high, covered profusely with large double flowers, resembling in shape a large-flowered Japanese Chrysanthemum, the petals being long and twisted, and recurved in such a manner as to form a loose, but still dense, semi-globe 15

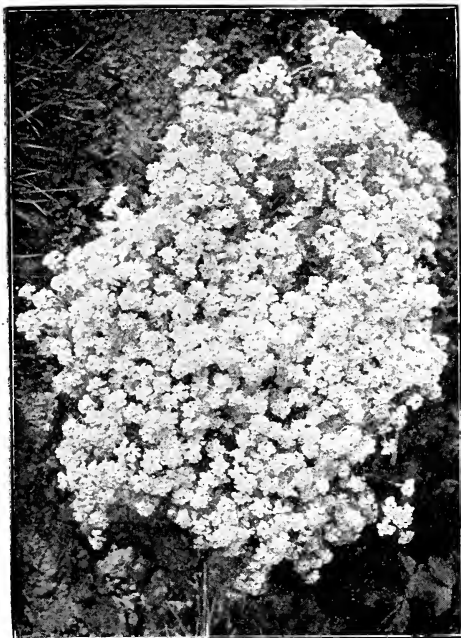

5 Pkts., 60 cents.

Victoria, Choice Mixed

Height about 18 inches. It has a good habit, and makes a desirable late summer bedding plant, also being suitable for pots. The blooms are large, double and very handsome, coming in great profusion

5 Pkts., 40 cents.

10

ALYSSUM

ASTERS—Continued

Truffaut's Paeony-Flowered Perfection Mixed

A splendid hardy variety, growing from 18 inches to 2½ feet high. The flowers are large, double, globe-shaped, and are borne on elongated stems. The weight of the flowers renders the use of sticks necessary \$0 10
5 Pkts., 40 cents.

Dwarf Chrysanthemum-Flowered Mixed

Comes 8 to 10 inches high; the branches are numerous and regular in height. The flowers are very broad, slightly flattened, and very beautiful. Specially suitable for pot and border culture, and valuable on account of its profuse late flowering..... 10
5 Pkts., 40 cents.

ASTER

Rose-Flowered, Choice Mixed

Height 18 to 20 inches; somewhat similar to Victoria, but the flowers are rather more compact 10
5 Pkts., 40 cents.

BACHELOR'S BUTTON

A hardy annual of easy culture. Sow the seed early in spring where it is to remain and thin to 3 or 4 inches.

Finest Mixed Varieties..... 05
5 Pkts., 20 cents.

Pkt.

BALSAM OR LADY SLIPPER

Pkt.

A tender annual with brittle stem, and foliage, grows about 12 inches high. Flowers are wax-like and very attractive.

Best Double Mixed..... \$0 05
5 Pkts., 20 cents.

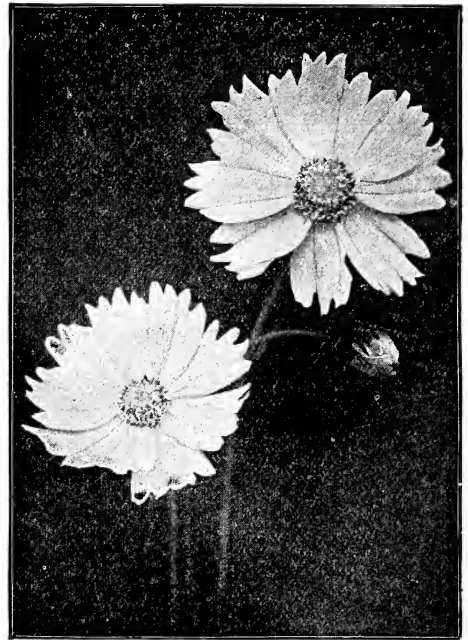

CALLIOPSIS

A half-hardy annual, growing 3 feet high and valuable for bright bedding effect or for cut flowers.

Grandiflora 10
5 Pkts., 40 cents.

CANDYTUFT

A hardy annual of easy culture, growing 10 to 18 inches high. The flowers are white and borne on various long spikes, forming very large heads, and are used for bedding or cut flowers.

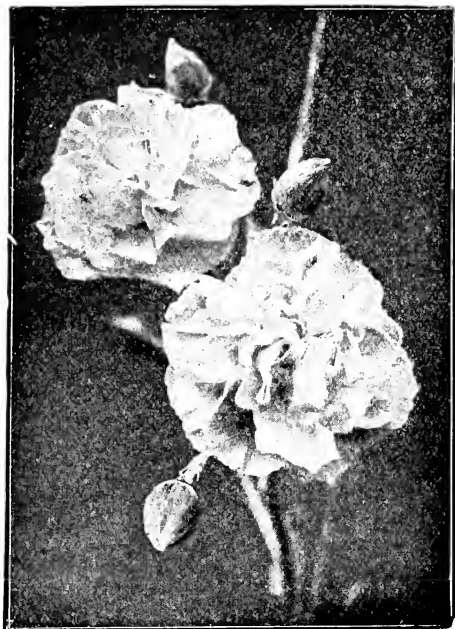

CALLIOPSIS

Giant Hyacinth, Flowered..... 05
5 Pkts., 20 cents.

CARNATION

A half-hardy perennial, used generally for greenhouse trade in winter and for a general garden favorite in summer. Sow the seed early in the year in hotbed and transplant about April 15.

Margarita, Choicest Mixed..... 10
5 Pkts., 40 cents.

CARNATION

CENTAUREA

Pkt.

A hardy annual, growing $1\frac{1}{2}$ to 2 feet high, bearing beautiful large flowers resembling Sweet Sultan, but with a large petal margin around the blossom. Sow seed early and transplant.

Imperialis Choice Mixed..... \$0 15
5 Pkts., 60 cents.

DAHLIA

CLARKIA

Pkt.

Hardy annual of easy culture about 18 inches high, flowering in great profusion, seed sown in fall will give blossoms in spring, and can be sown most any time.

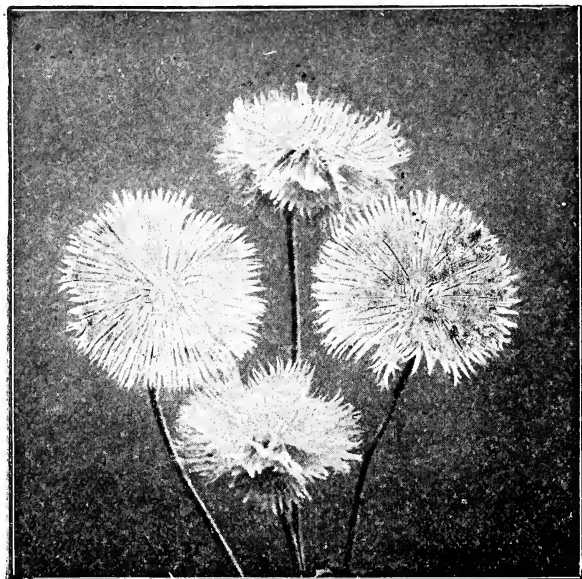

Choice Mixed \$0 05
5 Pkts., 20 cents.

CLARKIA

MIGNONETTE

CENTAUREA

COCKSCOMB

A half-hardy annual, growing 6 to 8 inches high, bearing a wide wavy blossom that resembles a cock's comb. Brilliant colors and fine for massing or border work.

Choicest Dwarf, Mixed Varieties..... \$0 10
5 Pkts., 40 cents.

COSMOS

A tender annual, with fine-cut feathery foliage and large feathery blossoms. Grows 4 to 6 feet high and blooms late in fall. Sow about May 1 and transplant in late May or June.

Choice Mixed Varieties..... 05
5 Pkts., 20 cents.

DAHLIA

A well known and popular late summer and autumn flowering plant. Seed may be sown early in hotbed and plants transplanted in May after all danger of frost is over. By sowing the seed early the plants may be made to bloom the first year.

Single (Extra Choice Mixed)..... 10
5 Pkts., 40 cents.

Double (Large Flowering, Finest Mixed) 15
5 Pkts., 60 cents.

DIANTHUS (Pinks)

Hardy annual, about one foot high and bearing beautifully colored single and double blossoms in profusion all summer. Sow seed early in boxes and transplant, or sow in rows where the plants are to remain and thin.

Splendid Mixed Varieties..... 05
5 Pkts., 20 cents.

DIGITALIS (Fox Glove)

Pkt.

A hardy perennial, blooming the second year from seed. Grows usually about 3½ feet high. The bell-shaped flowers are borne on long spikes and in shades of purple, lavender, rose and white. All spotted lightly inside the blossom. Thrives best in cool, shady locations.

Choice Mixed Varieties..... \$0 05
5 Pkts., 20 cents.

GODETIA

Hardy annual of compact growth, 6 to 10 inches high, bearing a profusion of satin cup-shaped flowers, valuable for bedding or massing. Sow seed early.

Duchess of Albany..... 10
5 Pkts., 40 cents.

HOLLYHOCK

A hardy perennial of upright, stately growth, 5 to 8 feet high. They make a fine row in the garden, or a fine background next to a building or high wall or fence.

Finest Double Mixed..... 10
5 Pkts., 40 cents.

MARIGOLD

A hardy annual shrub plant in dwarf and tall varieties, growing from 6 inches to 3 feet high. Foliage bright green, deeply cut, and graceful. The flowers are various shades of yellow and brown. Tall varieties are valuable for large bedding or background work and the dwarf varieties for border.

DIANTHUS

Dwarf German Mixed..... \$0 15
5 Pkts., 60 cents.

Large Flowering Mixed..... 15
5 Pkts., 60 cents.

SWEET PEAS

The Sweet Pea is a climbing annual and hardy. This popular flower is of the easiest culture and well adapted to most any cli-

SWEET PEAS

mate. The seed should be sown early in the spring in a drill 4 to 6 inches deep, dropping three or four seeds every four inches and covering about one inch, working the soil around the plant as it comes up until it is on a level with the surface, this leaves the roots down deep enough not to be affected by dry weather.

Sweet Peas require an abundance of water and an open location. The water should be applied at the roots and the vines should not be sprinkled. A trellis of brush or chicken wire is necessary.

Apple Blossom. Crimson, pink and white shaded.

Aurora. Orange, rose striped or white.

Blanche Burpee. Pure white (white seeded).

SALPIGLOSSIS

SWEET PEAS—Continued

Countess of Cadogan. Purple changing to lilac and blue.

Countess of Radnor. Lavender.

Dorothy Eckford. Pure white.

Emily Eckford. Rose, lilac and blue.

SCABIOSA

SWEET PEAS—Continued

Her Majesty. Rose crimson.
Hon. Mrs. E. Kenyon. Large primrose.
King Edward VII. Bright crimson.
Lady Grisel Hamilton. Light shaded lavender.
Lottie Eckford. White shaded lilac and blue.
Lovely. Deep pink, shading to light pink.
Miss Wilmot. Large orange, pink.
Navy Blue. Navy and light blue.

SWEET WILLIAM

Pkt.

A hardy perennial, blooming the second year from seed. Grows 1 to 2 feet high and bears its flowerets in clusters at end of a stiff stem. The individual flowers are handsomely colored and marked. It makes a beautiful bedding plant, and is of easy culture.

Double Finest Mixed..... \$0 10
 5 Pkts., 40 cents.
